

Buckeye Miata Club

Leather Refurbishing Services

Several club members have had their seats refurbished by this local vendor. Both full seat refurbishing and bolster repair have been done with great success. The costs are also less than you would expect for the results.

The photos below show the results on Gary Clark's 2001 Miata on April 23, 2024. The cost was \$210 cash. The color match is amazing; especially considering the leather is 23 years old. Adds a lot of value to the car.
